

City of Keizer
Bikeways Committee
September 17, 1997

Meeting was attended by Hersch Sangster, Lori Deibert, Barry Evensen, Joe Edgell, and Jack McElwain. Meeting was called to order. Minutes were reviewed and approved.

A special THANK YOU goes to Joe Edgell, for getting the meeting material together and agenda, etc. for this meeting. Joe goes above & beyond for this committee and it is much appreciated.

At the last meeting we discussed the bike path striping and signage, and during the last month we paid special attention to Keizer's bikeways to see how they were marked, if they were clean and free of debris. We found some things lacking. Hersch will write a letter to the City in regards to our findings. Hersch also planned to talk to John Morgan regarding bike paths on Delight (a grant available?), and question about future Iris Lane, are bike paths planned? Also we need to find out what the wording is in the Keizer Transportation Plan as far as bikeways are concerned.

We decided to continue our alliance with the Traffic Safety Commission, Lori was to go to the August meeting, but was not able to make it. Barry will go to the September meeting and Lori will go to the October meeting. We will work together with them on Bike Safety and Training. We discussed several ways we might do this: Bike Safety Classes, Bicycle Rodeo, Bicycle Clinic, etc. Also get Keizer Police Dept. involved in some way.

Next on the agenda was Bike Racks at the Salem/Keizer Volcano's Stadium. Lori talked to Rick Nelson and he said he was waiting to get plans from us, as to what was available or what we thought would work at the Stadium. Hersch and Joe were going to follow up with Rick on that.

Next meeting is October 8, 1997. Meeting was adjourned.
