Judy Smith Councilor - City of Keizer

Dear Judy Smith and City Council Members:

The Keizer Bikeway Advisory Committee (KBAC) recommends that there be a study to look into the feasibility of putting in a crossing or traffic calming device at Lockhaven and Verda Lane.

This section of Lockhaven has seen increased traffic with increasing speed. Crossing without an established crossing or other traffic calming device makes it dangerous for both pedestrians and bicyclists.

A study to help determine the best method to help both pedestrian and bicyclists cross Lockhaven is needed.

The KBAC is willing to help in anyway to help with this project or future projects.

Thank you for your consideration.

Hersch Sangster

Chair- Keizer Bikeway Advisory Committee

cc: KBAC Members
